trident

To whom it may concern

Reference for: Redmond Building and Restoration Limited (RBR)

Trident Building Consultancy Limited engaged RBR on behalf of London & Regional Properties to carry out structural and aesthetic repairs to the brick façade at Cotton House, Cochrane Street, Glasgow, G1 1GY.

The building has a seven storey brick façade. The façade was removed and the structural walls were stabilised, following which the façade was rebuilt. During the works the windows were adjusted and covered to avoid any nuisance to the Tenant and additional protective measures were provided to the scaffolding.

The building was occupied by a Government Department throughout the works and therefore the project required substantial phasing and protective measures to facilitate significant external works, whilst allowing the occupiers to continue their business.

The project required the full commitment from the RBR team and we compliment them on their site management.

Trident Building Consultancy Limited would happily work with RBR on future projects of this nature.

Yours faithfully

Colin Wilson
Director - Trident Building Consultancy Limited
