

SAINT:FIN:BARRE'S
CATHEDRAL

DEAN OF CORK
The Very Revd Nigel Dunne B.Th., M.A., M.Phil.

7th March 2011

To Whom It May Concern

RE: Redmond Building and Restoration Ltd.

I write with reference to recent restoration work carried out here at Saint Fin Barre's Cathedral by Redmond Building and Restoration Ltd. They have been working on the main spire and the restoration of the boundary walls, railings and gates since last year.

We have found the company to be most efficient, keeping very precisely to agreed time schedules and completing work to a very high standard. We have been most impressed with the company's working methods and it's attention to site health and safety has been of the highest standard.

The Redmond's staff are most obliging and have shown tremendous ability to solve problems on site, often coming up with practical and workable solutions without having to wait for our consultants to propose solutions and revert with suggestions. The company have demonstrated a broad range of skills, especially in the areas of stonework conservation, reconstitution and consolidation.

This company has worked well with all parties involved in our ongoing restoration programme, including myself, the Conservation Committee, Cathedral staff, conservation consultants and quantity surveyors.

I am happy to strongly recommend Redmond Building and Restoration Ltd to anyone to whom they are tendering for work.

Should you require any further information please do not hesitate to contact me as per the details below.

Yours sincerely

Very Revd Nigel Dunne
Dean of Cork & Chairman of the Cathedral Select Vestry
